

Summer Group Program

We offer this program for groups of 25 or more and the cost is \$15.00 per person, including staff. We start your event with a ten minute video on the history of aviation in NJ. A guide will then take you on a tour of the museum and answer any questions you may have. The tour and question and answer period will be tailored to the age group that is attending. The museum has two levels of artifacts and a number of "hands on" exhibits. There is also a genuine balloon basket you can climb into and see what the first cockpit was like!

We have a mini - plane called the "Little Cut-Up" that was custom made for our younger guests. They can sit in the cockpit and move the wings, etc... Next, you will go into our courtyard and will be able to sit in the cockpits of real aircraft and an airport fire truck! This includes a M*A*S*H Bell helicopter, a Walter Aircraft Rescue & Fire Fighting Truck and the world's only surviving Martin 202 airliner. This aircraft was operated by TWA beginning in 1950. Additionally, a Coast Guard Helicopter, an OV-1 Mohawk observation plane, a Glider, a very rare Lockheed Bushmaster, and a Cobra Gunship Helicopter are on display, but the cockpit cannot be accessed.

Please call for availability.

If you would like to bring your lunch, we have a lunch pavilion located in our courtyard that you can use. Please arrange to take your garbage with you, as we do not have dumpsters on the property.

For more information, call 201-288-6344 or go to www.njahof.org
